

Saad Mujawar – Python | AI

Sangli, Maharashtra, India | +91-7498535517 | saadmujawar864@gmail.com | [LinkedIn](#) | [GitHub](#)

SUMMARY

Passionate B.Tech graduate specializing in Artificial Intelligence and Machine Learning, with hands-on experience in Python, Django, SQL, Machine Learning, and Cloud Computing. Proven ability to build LLM-powered applications, RAG systems, and full-stack web platforms using industry-standard frameworks. Oracle-certified Generative AI Professional dedicated to driving technological innovation and delivering impactful solutions through advanced AI and software development skills.

EDUCATION

Sanjay Ghodawat University Kolhapur, Maharashtra, India
Bachelor of Technology – Artificial Intelligence and Machine Learning | CGPA: 7.15 2022 – 2026

WORK EXPERIENCE

- Codec Technologies Pvt. Ltd.** Remote
Data Analytics Intern (AICTE & ICAC Approved) Feb 2026 – May 2026
- Completed a 3-month AICTE & ICAC approved data analytics internship, analyzing 5+ real-world datasets to derive actionable business insights using Python and SQL.
 - Built and evaluated 3 machine learning models for customer churn prediction, achieving over 85% accuracy through feature engineering, data cleaning, and hyperparameter optimization.
 - Developed 4+ interactive Power BI dashboards to visualize churn trends and KPIs, enabling data-driven decisions for stakeholder presentations.
- Navodita Infotech** Remote
Machine Learning Intern Mar 2025 – Apr 2025
- Designed and trained a CNN for image classification on the CIFAR-10 dataset, achieving over 90% categorization accuracy across 10 predefined classes.
 - Reduced model overfitting by 15% through data augmentation, preprocessing pipelines, and hyperparameter tuning across 20+ training iterations.
 - Documented model architecture, evaluation metrics, and deployment considerations, contributing to a structured technical report for the team.

PROJECTS

- Customer Churn Prediction** | *Python, Scikit-learn, Pandas, Power BI, SQL* Feb 2026 – May 2026
- End-to-end ML pipeline (Logistic Regression, Random Forest, XGBoost) on 10,000+ records achieving 87%+ accuracy; 15+ engineered features and 4 Power BI dashboards for stakeholder insights.
- Fraud Detection using Machine Learning** | *Python, XGBoost, Random Forest, Scikit-learn* 2025
- Fraud detection pipeline on 6.3M+ transactions; engineered balance mismatch features achieving ROC-AUC > 0.90, identifying TRANSFER and CASH.OUT as highest-risk transaction types.
- FastAPI Wallet Service** | *FastAPI, SQLAlchemy, Pydantic v2, Docker, pytest* 2026
- Production-ready REST API with atomic wallet transactions, Pydantic v2 validation, pytest suite, Swagger docs, and Dockerized deployment on Render.
- AI-Powered Blog Generation Model** | *Flask, LLaMA 2 7B, GGML, Python* Feb 2025 – Jul 2025
- Flask app powered by LLaMA 2 7B Chat (quantized GGML) generating 500+ word posts across 10+ topics on CPU; prompt optimization cut inference time by 30%.

CERTIFICATIONS

Certification	Issuer	Date
OCI 2025 Certified Generative AI Professional	Oracle	2025
Get Started Building with Power BI	Microsoft	Jun 2026
Introduction to Data Science	Cisco Networking Academy	May 2026
Microsoft Learn AI Skills Challenge	Microsoft	2025
Machine Learning with Python	Professional Certification	2024
Python, Django Framework and HTML5 Stack	Udemy	2024

ACHIEVEMENTS

EY Techathon 6.0 – Round 1 Qualifier | Qualified Round 1 (Executive Summary Submission) of EY Techathon 6.0, a national-level hackathon organised by Ernst & Young via Unstop, competing among thousands of participants across India.

TECHNICAL SKILLS

AI & Machine Learning: Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), CNNs, Prompt Engineering, TensorFlow, Scikit-learn, XGBoost

Programming Languages: Python, JavaScript, SQL

Frameworks & Libraries: Django, Flask, FastAPI, React.js, Next.js, GGML/llama.cpp

Cloud & Infrastructure: Oracle Cloud Infrastructure (OCI), Generative AI Services, Vector Databases

Data & Tools: Data Analysis, Power BI, Feature Engineering, EDA, REST APIs, Git
